

Curriculum Vitae – professor Olav Kristoffersen

Date of birth: 30.11.1973, Bodø
Telephone: +47 97756070 / +47 73595064
Email: olav.kristoffersen@ntnu.no
Position: Professor in architectural design at NTNU, Trondheim, from 2014
Guest professor at KADK, Copenhagen, 2015-2017
Managing director of Brendeland & Kristoffersen arkitekter AS, Trondheim, from 2002

PROJECTS

Buildings/urban plans:

2011 - 2015 Hornebergvegen, Trondheim. 34 000 m2 office/industry. Zoning plan 2013. Ongoing project.
2011 - 2015 Villa at Lian, Trondheim
2012 - 2014 House extension at Berg, Trondheim.
2012 - 2014 Urban plan for Gystadmarka, Jessheim. 5 000 dwellings and 1 600 daa. Approved 2014.
2012 - 2013 Housing for mentally disabled, Camphill Jøssåsen in Malvik. 200 m2.
2012 - 2013 Exhibition "The "little Urbanist", Nasjonalmuseet - arkitektur.
2010 - 2012 Villa in Stjørdal, based on active house principles. 200 m2.
2011 Building Blocks, architectural installation for children at Norsk Form.
2010 - 2011 Zoning plan for Jøssåsen, Malvik.
2007 - 2010 Weekend house in Surnadalsfjorden. 70m2.
2004 - 2009 Conversion of Strandveien auto at Svartlamoen, Trondheim. Transformation of a 3 500m2 car dealership to cultural and commercial programs.
2008 Stand for 100% Norway at 100% Design 2008, Earls Court, London.
2006 - 2008 Villa Borgen/Nilsen, Ranheim. 120m2.
2005 - 2007 Row-houses in Vei 228, Longyearbyen. 400m2.
2005 - 2007 Svartlamoen Nursery, Trondheim. 470m2.
2005 Architectural installation at Designmai, Invalidenstrasse, Berlin.
2002 - 2005 Apartment building at Svartlamoen, Trondheim, 1030m2.

R&D projects:

2010 - 2012 "Active house of the Future", financed by the Norwegian Housing Bank.
Development of solutions for large window surfaces, good daylight conditions and natural ventilation combined with energy class A (passive house level) with a single family house in Stjørdal as case. collaboration with Velux in Denmark, NTNU (prof. Anne Grete Hestnes), Teknoconsult/Sintef, Vintervoll, Aas luftbehandling.

2003 - 2005 "Wood construction at Svartlamoen", financed by Innovation Norway.
Development of CLT construction and untreated wood facades for multi-storey buildings with Svartlamoen as case. Support from a reference group consisting of specialists from NTNU (building physics), Norwegian Institute of Wood Technology, Byggforsk (sound), Tresenteret i Trondheim, Moelven, Cowi (fire) and Reinertsen Engineering (structure). In addition, we brought Austrian and Swedish manufacturers into this project.

2003 - 2005 "User participation and district development", financed by the Norwegian Housing Bank.
Extensive user participation processes in the district of Svartlamoen, assisted by the municipality of Trondheim. Development of methodology for handling diverging viewpoints and suggestions while maintaining the planned progress. Involved a large number of meetings and participants.

2003 - 2004 "Energy use in social housing", financed by the Norwegian Housing Bank.
Development of robust concepts for minimisation of energy use and environmental impact through the lifecycle of the buildings within a limited building budget with Svartlamoen as case. The work was assisted by resources from Sintef, NTNU, and cross-disciplinary student projects at NTNU.

2003 - 2004 "Dynamic apartment plans", financed the Norwegian Housing Bank.
Development of apartment plans which allows for diverse living, atypical tenants, low rent and simple management of the social housing at Svartlamoen. Collaboration with tenants and Ungbo.
