How To Subscribe To The National Health Service

Registering with the National Health Service (SSN) allows you to enjoy the following benefits:

- choice of a general practitioner or freely chosen pediatrician
- access to specialized medical treatment at the request of the general practitioner by paying the charge for it
- medicines prescribed by the general practitioner

The Local Health Office (ASL) where the foreign citizen registers with the SSN must be the one where he/she is registered as resident or where he/she habitually resides.

The documents required for registration are as follows:

- self-certification of residence or declaration of actual address
- a valid residence permit or receipt of permit application
- original copy of his/her tax payer's code number
- monthly pay slips with contributions paid or Receipt of payment for the subscription

The annual voluntary contribution for employed workers to be paid to the National Health Service in the Lombardy Region has been determined as €387.34.

This contribution must be paid at a Post Office or a Bank to:

c/c postale (account number) n. 379222

intestato a (payable to) P.T. Regione Lombardia

causale (reason of the payment): iscrizione al SSN Anno ____ (SSN Registration for the year ____).

This annual contribution is valid from 1 January to 31 December of each year. It is therefore important to note that if a visiting foreigner arrives, for example, during November, and wishes to register voluntarily with the health service, the contribution paid would last only until the end of the following month, and he/she would have to pay the full contribution again in January.
