

# Milan, the unexpected green-growing city

10th edition

ATHENS - Politecnico di Milano AUIC School - DASTU Department

March 13 - 17, 2023

Room "Didattica" @ Building 29, GF

Politecnico di Milano - Campus Leonardo - Piazza Leonardo da Vinci 26

International students are called to discover, analyze, and discuss through lectures and guided visits Milan as a city where gardens, parks, and greenery have always been part of its continuous transformation during its millenary history. Focusing on environmental design and landscape architecture techniques, this course introduces – also to students without any architectural or landscape architectural background – the relevant meaning of these multi-layered open space infrastructures inside a contemporary urban metropolis.
