Dear Students and Colleagues,

the meeting of the monitoring unit this morning has been focused on how to make the next BS degree examinations possible and to plan the actions necessary to organize as soon as possible the distance learning activities and therefore guarantee to all students a study path even at this time of emergency.

Today’s work has ensured that the degree examinations scheduled for next week, will be carried out entirely in distance learning mode according to the schedule that will be announced shortly. The involved Study Courses Coordinators and the graduating students will receive more precise instructions on the method of recognition, the discussions and the proclamations.

We are continuing to work to be able to start the curricular teaching activities scheduled for this semester. The monitoring unit is testing the offer of courses in distance learning mode. We will inform Professors and students of the activation of the distance courses in case the interruption of the teaching in presence should last longer than expected.

For any questions about the management and organisation of activities please write to the following address: monitoraggio@polimi.it

Thank you for your attention

Best regards
Ferruccio Resta
Rector of Politecnico di Milano
