Dear Students and Colleagues,
I would like to give you more details on the actions defined this morning by the monitoring unit.
As anticipated yesterday, we are operating with the aim of ensuring the next BS degree examinations and the start of the curricular teaching activities if the emergency should continue.

I confirm that all the degree examinations scheduled for March 4 (Polo di Lecco) and March 5 (all venues) will take place online.
We have made this decision to allow the graduating students to complete their studies and to be able to enroll in subsequent courses or to start working immediately.
I am aware of the value of a formal ceremony in presence, shared with your loved ones: for this reason I anticipate that as soon as possible the University will organize an open Graduation Day dedicated to graduates of this session and their families.

Throughout the day we have continued working on the possibility of starting the semester in distance learning mode. Today’s indications of the Ministry of University and Research authorize us in this regard. Tomorrow we will inform you on the timetable and the operating mode.

For any information about the management and organisation of activities please, write to the following address: monitoraggio@polimi.it

Thank you for your attention
Best regards
Ferruccio Resta
Rector of the Politecnico di Milano
