Dear Students, Dear Colleagues,

many of you ask me how Politecnico is planning to deal with what is called "Phase 2". It is not up to us to set the timetable, but of course we have to deal with the modalities.

I would like to reassure you: the monitoring unit is well aware of it and is addressing the problem, analyzing the individual processes related to teaching, research and life in the University of students, staff and Professors.

The general principles that we have identified are to keep collective activities closed, to begin to allow individual activities, in a protected and safe way, of course, to minimize student movements, while continuing to ensure distance services.

In the tomorrow's session the Academic Senate will address the issue, will discuss a plan for the next months to reach the end of the semester and will define the first guidelines for the beginning of the new academic year.

For reports regarding the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta
Rector of Politecnico di Milano
