Dear Students, Dear Colleagues,

as already announced, we are completing the trials for the remote delivery of the admission tests to the Engineering and Design Laurea Programmes. The first appointment in distance mode for the first 200 students already registered to the cancelled sessions at the end of February has already been scheduled for May 6. The dates of the following sessions will be published in the next days.

Next week, on April 28 and 29, we confirm the graduation examinations for Master of Science Programmes in distance mode. The academic calendar already published has not changed and therefore the teaching activity is suspended on April 28 in the Regional Campuses and on April 29 in Milan.

Wishing you a good weekend, I would like to point out the video VICINI A DISTANZA [Close at a distance], produced by The Conference of Italian University Rectors, that today the Italian universities published on their websites. The university is a social community made of minds, people and relationships. Universities did not close and have adapted: 76,000 courses in a month, 94% of all classes confirmed, 70,000 esams held, 27,000 graduation sessions, 1.4 million students involved. To continue to stay close, at a distance, and return renewed.

For reports regarding the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards
Ferruccio Resta
Rector of Politecnico di Milano
