Dear Students, Dear Colleagues,

today the monitoring unit has analyzed the new [DPCM 26 April 2020](https://www.gov.it/) and evaluated the impact it will have on the University in the period from May 4 to May 17. Waiting for the new ministerial and regional decrees, we can observe that the contagion mitigation still requires to limit the movement of people minimising the risk of proximity and aggregation and adopting organizational measures of prevention and protection. In the next few days we will complete the analysis and start the activities necessary to face this new phase, which will see the restart, still very cautious, of some activities. However, I would like to confirm that research and laboratory activities will be our priorities, as anticipated by the Academic Senate.

For reports regarding the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta
Rector of Politecnico di Milano
