Dear Students, Dear Colleagues,

after a meeting with Department Heads and Managers we planned the necessary actions to address the partial opening of the research activities starting from May 4, in compliance with the regulations, minimizing the risk of contiguity and aggregation, and adopting all organizational measures of prevention and protection.

In particular:
- A "Pian for Mitigation of Contagion" has been prepared, defining the procedures to access and carry out the working activities safely on the premises of the University. The plan and the operational instructions are currently being distributed to all staff.
- The protection devices (individual surgical masks, product for sanitization of hand and surfaces, also with the contribution of our Polichina) essential for hygiene and/or prevention have been made available to all structures (Departments, Areas) for distribution.
- Reinforced procedures of cleaning and sanitation of all areas have been activated.

Administrative activities, in compliance with the Prime Ministerial Decree of 26 April, will continue to be guaranteed wherever possible at a distance. Temporary smart working, already granted to technical administrative staff, will be extended until May 17.

For reports regarding the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta
Rector of Politecnico di Milano
