Dear Students, Dear Colleagues,

yesterday the first session of the Admission Test in Engineering was successfully held. The session was dedicated to students that registered for the test of February 28, that was suspended.

Almost 200 students took the test without problems, in distance mode.

During the next week we will be able to carry out other sessions that will allow all the enrolled students to the suspended tests for the emergency to take the test. Afterwards we will proceed until mid-July with the other sessions of the Engineering and Design Tests: the complete schedule will be published on the University website next week.

In this first phase priority will be given to fifth year high school students, while for fourth year students reserved sessions dates will be organized.

For reports regarding the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta
Rector of Politecnico di Milano
