Dear Students, Dear Colleagues,

first, let me thank again colleagues Professors and technical administrative staff for the great sense of responsibility they have shown in the start of this phase 2.

Now we must ask even more attention to all those who from next Monday will come to Politecnico. In compliance with the regional ordinance issued yesterday, anyone who enter the Politecnico premises must undergo the body temperature control. Access will not be allowed to those who will have a temperature above 37.5 degrees Celsius.

A number of points have been set up in all campuses for the control.

The entrance will be guaranteed from 8 a.m to 8 p.m from Monday to Friday and from 8 a.m. to 2 p.m. on Saturday.

For more information on the access points and procedures, I invite you to read the ordinance of the General Director.

Furthermore, I would like to inform you that tomorrow, Saturday May 16, Milano Arch Week will return in distance mode.

At this complex time, the Milano Arch Week Marathon will be dedicated to the city of Milan, the challenges it is facing and those it will face in the near future, involving a number of well known international architects who have designed some of the most emblematic places of the city in recent years. Their vision, which combines worldwide experience with direct knowledge of the reality of the city, can make an important contribution to the ongoing debate.

There will also be a series of speeches - coordinated by Ilaria Valente, Dean of the School of Architecture, Urban Planning, Construction Engineering - which will cover the period of post-war reconstruction in Milano and will involve Professors of the Politecnico di Milano.

The Milano Arch Week Marathon will be available on the Facebook page of Politecnico di Milano, and on the pages of Milano Arch Week, Triennale Milano, Fondazione Giangiacomo Feltrinelli and on the Youtube channel of Triennale Milano.

The programme is available on www.milanoarchweek.eu

For reports regarding the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta
Rector of Politecnico di Milano
