## CREDIT SYSTEM AND GRADING SCALE

**European Credit Transfer and Accumulation System (ECTS)** is a standard for comparing the study attainment and performance of students of higher education across the European Union and other collaborating European countries. One academic year corresponds to **60 ECTS** credits that are normally equivalent to **1500-1800 hours** of total workload, which includes teaching hours, class attendance, classwork, laboratory work and individual study.

Credits may be obtained also through other activities such as additional training courses, project works, theses, internships, foreign languages, computing skills, training in communication and public relations and group work. The Italian **grading scale is out of 30**, where 18 is the minimum passing grade and 30 cum laude the highest grade.
