Notice

Laurea Magistrale degree session April 2020
Special date added in June

As previously announced, the April exam session for Laurea Magistrale (equivalent to Master of Science) degree is confirmed and extended: to the dates of 28 and 29 April we added that of 6 June.

For all dates, registration to the graduation session starts on 16/03/2020 and ends on 09/04/2020.

Students who expect to graduate in April must submit the final work online:

- by 2/4/2020 if the thesis requires a discussant
- by 9/4/2020 if the thesis doesn’t require a discussant

The supervisor will “approve” or “delay” the final work:

- by 7/4/2020 if the thesis requires a discussant
- by 15/4/2020 if the thesis doesn’t require a discussant

Students and supervisors are recommended to respect the deadlines: no exception will be allowed.

Students regularly registered to the April session who need more time to complete their work and think they can graduate in June, as well as students whose thesis has been ”delayed” by their supervisor, must submit their final work online – either with or without discussant – by 14/05/2020. In this case, the graduation date will be postponed automatically to 6/6/2020.

Supervisors must approve the final work, either with or without discussant, by 21/5/2020.
