

# Carlotta Orsenigo

Politecnico di Milano  
Dep. of Management, Economics  
and Industrial Engineering  
Via Lambruschini, 4b  
20156 Milan, Italy

Phone: (+39) 02 2399 3970  
Email: [carlotta.orsenigo@polimi.it](mailto:carlotta.orsenigo@polimi.it)

## Current and previous positions

- June 2019-Present: Associate professor of Computer Science at Politecnico di Milano, Dep. of Management, Economics and Industrial Engineering.
- November 2008-Present: Assistant professor of Computer Science at Politecnico di Milano, Dep. of Management, Economics and Industrial Engineering.
- January 2005-October 2008: Assistant professor at Università degli Studi di Milano, Dep. of Economics, Management and Quantitative Methods.
- April 2003-December 2004: Research fellow at Politecnico di Milano, Dep. of Management, Economics and Industrial Engineering.

## Research activity

The research activity has been focused on the development of novel models and methods for machine learning and pattern recognition and their application in several domains ranging from biolife sciences to marketing and finance. Two major research strands were explored. From one side, the development of classification algorithms in the context of statistical learning theory. Main research achievements in this area focused on discrete variants of support vector machines (SVM) and on their combination with classification trees. Specifically, algorithms for time series classification, multi-class discrimination and polyhedral methods for binary classification tasks were proposed and effectively applied on several benchmark problems. From the other side, the design of nonlinear dimensionality reduction techniques for high-dimensional data embedding. Major research goals were achieved in the context of manifold learning where effective variants of Isometric feature mapping (Isomap) and novel out-of-sample projection techniques were proposed and applied in several domains. Recent research efforts have been devoted to text analytics for sentiment analysis through machine learning and deep learning algorithms and the use of text classification methods in innovation and entrepreneurship studies.

## Publications

### ISI/SCOPUS Journals and Books

1. K.A. Arano, P. Gloor, C. Orsenigo, C. Vercellis. “Emotions are the Great Captains of our Lives”: Measuring Moods through the Power of Physiological and Environmental Sensing. *IEEE Transactions on Affective Computing* (2020), in press, <https://doi.org/10.1109/TAFFC.2020.3003736>.

### Conference talks and seminars

Speaker at the following conferences and invited seminars:

1. Invited speaker at the Social Media Days-Italy (Machine Learning seminar), Milano, October 2018.
2. Invited speaker at Google Italy for the Google Machine Learning Day, Milano, January 2018.
3. 10th International Conference on Modeling Decisions for Artificial Intelligence (MDAI 2013), Barcelona, November 2013.  
Title: *Landmark selection for isometric feature mapping based on mixed-integer optimization*
4. 11th European Conference on Evolutionary Computation, Machine Learning and Data Mining in Bioinformatics (EVOBIO 2013), Vienna, April 2013.  
Title: *Dimensionality reduction via Isomap with lock-step and elastic measures for time series gene expression classification*
5. 5th IAPR International Conference on Pattern Recognition in Bioinformatics (PRIB 2010), Nijmegen, September 2010 ([http://videlectures.net/prib2010\\_orsenigo.tsge/](http://videlectures.net/prib2010_orsenigo.tsge/))  
Title: *Time series gene expression data classification via L1-norm temporal SVM*
6. International Conference on Operations Research (OR 2010), Monaco, September 2010.  
Title: *Nonlinear dimensionality reduction through an improved Isomap algorithm for the classification of large datasets*

7. XXIV European Conference on Operational Research (EURO 2010), Lisbon, July 2010.  
Title: *Combining discrete SVM and fixed cardinality warping distances for multivariate time series classification*
8. IX Conference of the Italian Society of Applied and Industrial Mathematics (SIMAI 2008), Roma, September 2008.  
Title: *Discrete support vector machines: a family of classification methods based on mixed-integer optimization*
9. XXXIX Annual Conference of the Italian Operational Research Society (AIRO 2008), Ischia, September 2008.  
Title: *Combining discrete SVM and fixed cardinality warping distances for multivariate time series classification*
10. Invited seminar at Dip. di Informatica, Sistemistica e Comunicazione dell'Università degli Studi di Milano Bicocca, Milano, June 2008.  
Title: *Discrete support vector machines: a family of classification methods based on mixed-integer optimization*
11. 6th European Conference on Evolutionary Computation, Machine Learning and Data Mining in Bioinformatics (EVOBIO 2008), Napoli, March 2008.  
Title: *Gene selection and cancer microarray data classification via mixed-integer optimization*
12. 7th International International Workshop on Fuzzy Logic and Applications (WILF 2007), Camogli, July 2007.  
Title: *Evaluating membership functions for fuzzy discrete SVM*
13. 8th Industrial Conference on Data Mining (ICDM 2007), Leipzig, July 2007.  
Title: *Softening the margin in discrete SVM*
14. INFORMS 2nd Artificial Intelligence and Data Mining Workshop (WAID 2007), Seattle, November 2007.  
Title: *Classification of social networks entities by exploiting relational measures*
15. 5th European Conference on Evolutionary Computation, Machine Learning and Data Mining in Bioinformatics (EVOBIO 2007), Valencia, April 2007.  
Title: *Predicting HIV protease-cleavable peptides by discrete SVM*
16. INFORMS 1st Artificial Intelligence and Data Mining Workshop (WAID 2006), Pittsburgh, November 2006.  
Title: *Time series classification by discrete support vector machines*
17. XXXVI Annual Conference of the Italian Operational Research Society (AIRO 2005), Camerino, September 2005.  
Title: *Accurately learning from few examples with MIP-based classifiers*
18. Mathematical methods for learning: advances in data mining and knowledge discovery (MML 2004), Como, June, 2004.  
Title: *Discrete support vector machines for multicategory classification*
19. ECML/PKDD Workshop on Data Mining and Adaptive Modelling Methods for Economics and Management, Pisa, September 2004.

Title: *Hard separation in discrete support vector machines with relational marketing applications*

20. XXXV Annual Conference of the Italian Operational Research Society (AIRO 2004), Lecce, September 2004.

Title: *Hard separation in binary and multicategory discrete support vector machines*

21. XXXIV Annual Conference of the Italian Operational Research Society (AIRO 2003), Venezia, September 2003.

Title: *Multivariate classification trees based on minimum features discrete support vector machines*

## Funded research projects

Investigator in the following funded national research projects:

- **PRIN Project 2004**

Title: Data mining methods for e-business applications

Duration: 24 months

Role: Local unit researcher

- **PRIN Project 2006**

Title: Data mining and optimization models for biolife and healthcare problems

Duration: 24 months

Role: Local unit researcher

## Editorial services

- Associate Editor of the International Journal of Data Mining and Big Data (IJDMBD).
- Associate Editor of the International Journal of Data Mining Techniques and Applications (IJDMTA).
- Editorial board member of the The Open Bioinformatics Journal (TOBIOIJ).
- Editorial board member of the International Journal of Data Mining & Knowledge Management Process (IJDMP).
- Reviewer for the following international journals: AI Communications, Algorithms, Annals of Operations Research, Computers and Operations Research, Computational Optimization and Applications, Computers in Biology and Medicine, European Journal of Operational Research, Expert Systems with Applications, Knowledge-Based Systems, IEEE Signal Processing Letters, IEEE Transactions on Pattern Analysis and Machine Intelligence, Information Sciences, International Journal of Bioinformatics Research and Applications, International Journal of Pattern Recognition and Artificial Intelligence, International Journal of Software and Informatics, Multidiscipline Modeling in Materials and Structures, Operations Research.
- Program committee member of the following international conferences for which she also serves as a reviewer:
  - ◊ European Conference on Information System and Data Mining (CISDM 2019, 2020)
  - ◊ 17th Portuguese Conference on Artificial Intelligence (EPIA 2015)

- ◊ 2015 Genetic and Evolutionary Computation Conference (GECCO-2015), Biological and Biomedical and Applications track
- ◊ Evolutionary Computation, Machine Learning and Data Mining in Computational Biology (EVOBIO, from 2008 to present).
- ◊ IAPR International Conference on Pattern Recognition in Bioinformatics (PRIB, from 2009 to 2015).

## Organized conferences and workshops

- Co-Organizer of the International Conference *Mathematical Methods for Learning* (MML 2004), Como, June 2004 [with C. Vercellis (Politecnico di Milano) and G. Felici (IASI-CNR)].
- Invited session organizer on the topic "Data Mining for Life Sciences" at the XXIII European Conference on Operational Research (EURO 2009), Bonn, 2009.
- Invited session organizer on the topic "Forecasting, Data Mining and Machine Learning" at the Operations Research 2010 Conference (OR 2010), Monaco, 2010.
- Organizer of the following workshops at Politecnico di Milano:
  - ◊ *Business Intelligence: A constantly changing universe* (November 2011)
  - ◊ *Business Intelligence: Looking towards the future* (November 2010)
  - ◊ *Optimizing the performance with Business Intelligence systems* (November 2009)
  - ◊ *Business Intelligence: Create competitive advantage through data analysis* (November 2008)

## Institutional activities and other roles

- Co-Director of the *International Master in Business Analytics and Big Data* at MIP-Politecnico di Milano (from 2015).
- Co-Director of *DOOR*-Machine Learning and Big Data Analytics group at Politecnico di Milano.
- Scientific research responsible of the *Business Intelligence Observatory* at School of Management-Politecnico di Milano (from 2007 to 2013).
- Invited member of the Information Management School (NOVA IMS) Research and Development Center at Universidade Nova de Lisboa (from 2015).
- Member of the faculty board of the Doctoral Programme in Data Science and Computation at Università degli Studi di Bologna and Politecnico di Milano (from 2018).
- Member of the faculty board of the Doctoral Programme in Management Engineering at Politecnico di Milano (from 2017 to 2018).
- Member of the faculty board of the Doctoral Programme in Economics at Università degli Studi di Milano (from 2007 to 2009).
- Co-organizer of Milan Women in Machine Learning and Data Science Meetup (from 2018).

## Knowledge and technology transfer activities

- Co-founder and head of research of Aiblooms, spin-off Politecnico di Milano (from 2018).
- Participant in the following projects:
  - **Project NPI** (January 2019 - Present)  
Objective: Machine learning for new products demand forecasting.  
Industrial Partner: Luxottica  
Role: Artificial intelligence advisor
  - **Project Flexa** (March 2018 - Present)  
Objective: Development of a web platform for continuous learning based on artificial intelligence.  
Partners: School of Management (Politecnico di Milano) and Microsoft  
Role: Artificial intelligence advisor
  - **Project STM** (March 2018 - December 2018)  
Objective: Development of machine learning methods for early failure detection.  
Industrial Partner: STMicroelectronics  
Role: Investigator
  - **Project Meli** (February 2017 - September 2017)  
Objective: Development of a roadmap for predictive analytics aimed at designing innovative services for publishers and bookstores.  
Industrial Partner: Messaggerie Libri  
Role: Investigator
  - **Project ODM** (October 2015 - March 2016)  
Objective: Development and release of effective algorithms for origin-destination matrix estimation based on mobile phone call data.  
Industrial Partner: Tim  
Role: Investigator
  - **Project Preca2** (January 2015 - November 2016)  
Objective: Development and release of a novel prediction tool for optimal queue management.  
Industrial Partner: Esselunga  
Role: Investigator
  - **Project HiddenCorr** (October 2014 - January 2015)  
Objective: Development of classification models for churn prediction based on supervised learning algorithms.  
Industrial Partner: Vittoria Assicurazioni  
Role: Investigator
  - **Project Churner Prevention** (January 2011 - June 2011)  
Objective: Churners profiling and characterization based on pattern recognition methods. Analysis of churning root causes.  
Industrial Partner: Mediaset Premium  
Role: Investigator

- **Project Lido** (October 2007 - May 2008)  
Objective: Design and implementation of a novel production planning tool for liquid detergents optimal production.  
Industrial Partner: Unilever  
Role: Investigator
- **Project SMB** (October 2006 - April 2007)  
Objective: Targeting of prospects based on data mining technologies to optimize marketing campaigns.  
Industrial Partner: Oracle  
Role: Investigator
- **Project MediaMarketing Intelligence** (November 2003 - May 2004)  
Objective: Analysis and comparison of business intelligence tools for profiling customers of electronic goods.  
Industrial Partner: MediaMarket  
Role: Investigator
- **Project Optimal Packaging** (December 2003 - January 2004)  
Objective: Design and release of a production planning tool for the optimal production of packaging cases.  
Industrial Partner: Barilla  
Role: Research team member

## Teaching experience

### Bachelor (BSc), Master of Science (MSc), Postgraduate and Doctoral programs (PhD)

2019-2020	<b>Politecnico di Milano</b> , BSc in Management and Production Engineering ◦ <i>Mathematical Methods for Operations Research (A-C)</i> , 10 CFU, Professor <b>Politecnico di Milano</b> , PhD in Management Engineering ◦ <i>Data Mining</i> , 2 CFU, Professor <b>MIP-Politecnico di Milano</b> , Int. Master in Business Analytics and Big Data ◦ <i>Predictive Analytics and Business Applications</i> , 8 CFU, Professor
2018-2019	<b>Politecnico di Milano</b> , BSc in Management and Production Engineering ◦ <i>Mathematical Methods for Operations Research (A-D)</i> , 10 CFU, Professor <b>Politecnico di Milano</b> , PhD in Management Engineering ◦ <i>Data Mining</i> , 2 CFU, Professor <b>MIP-Politecnico di Milano</b> , Int. Master in Business Analytics and Big Data ◦ <i>Predictive Analytics and Business Applications</i> , 8 CFU, Professor

2006-2007	<p><b>Politecnico di Milano</b>, BSc/MSc in Management and Production Engineering</p> <ul style="list-style-type: none"> <li>◦ <i>Fundamentals of Operations Research (P-Z)</i>, 5 CFU, Professor</li> <li>◦ <i>Fundamentals of Operations Research (A-D)</i>, 5 CFU, Lecturer</li> <li>◦ <i>Business Intelligence</i> (Milano Campus), 10 CFU, Lecturer</li> <li>◦ <i>Business Intelligence</i> (Como Campus), 10 CFU, Lecturer</li> </ul> <p><b>Università degli Studi di Milano</b>, BSc in European Economics</p> <ul style="list-style-type: none"> <li>◦ <i>Laboratory of Business and Marketing Intelligence</i>, 5 CFU, Professor</li> <li>◦ <i>Mathematics</i>, 3 CFU, Professor</li> <li>◦ <i>Complements of Mathematics</i>, 3 CFU, Professor</li> </ul>
2005-2006	<p><b>Politecnico di Milano</b>, MSc in Biomedical Engineering</p> <ul style="list-style-type: none"> <li>◦ <i>Fundamentals of Operations Research</i>, 5 CFU, Professor</li> </ul> <p><b>Università degli Studi di Milano</b>, BSc in European Economics</p> <ul style="list-style-type: none"> <li>◦ <i>Laboratory of Business and Marketing Intelligence</i>, 5 CFU, Professor</li> <li>◦ <i>Mathematics</i>, 3 CFU, Professor</li> <li>◦ <i>Complements of Mathematics</i>, 3 CFU, Professor</li> </ul>
2004-2005	<p><b>Politecnico di Milano</b>, BSc/MSc in Management and Production Engineering</p> <ul style="list-style-type: none"> <li>◦ <i>Fundamentals of Operations Research (A-D)</i> (Milano Campus), 5 CFU, Lecturer</li> <li>◦ <i>Fundamentals of Operations Research (P-Z)</i> (Milano Campus), 5 CFU, Lecturer</li> <li>◦ <i>Fundamentals of Operations Research</i> (Lecco Campus), 5 CFU, Lecturer</li> <li>◦ <i>Business Intelligence</i> (Milano Campus), 10 CFU, Lecturer</li> <li>◦ <i>Business Intelligence</i> (Como Campus), 10 CFU, Lecturer</li> </ul>
2003-2004	<p><b>Politecnico di Milano</b>, BSc/MSc in Management and Production Engineering</p>

- *Models and Methods for Decision Support* (Milano Campus), 10 CFU, Lecturer
- *Models and Methods for Decision Support* (Como Campus), 10 CFU, Lecturer
- *Fundamentals of Operations Research (A-D)* (Milano Campus), 5 CFU, Lecturer
- *Fundamentals of Operations Research (P-Z)* (Milano Campus), 5 CFU, Lecturer

## Awards

EVOBIO 2007 Best Paper Award for the paper *Predicting HIV protease-cleavable peptides by discrete SVM*.
