MIT Corporate Relations aids and directs companies interested in multidisciplinary involvement with the Institute. Its expert staff works with MIT senior administration, faculty, and company executives to structure and define individualized alliances that mutually benefit the company and MIT.

MIT Corporate Relations also offers industry access to MIT through two integrated programs, the MIT Industrial Liaison Program (ILP) and MIT Startup Exchange.

The Industrial Liaison Program is instrumental in providing connections to MIT faculty, departments, labs, and centers. It serves companies across the globe and is organized both geographically and by industry. In addition to corporate partners, ILP also helps regional governmental organizations who look to the unique, entrepreneurial MIT/Cambridge environment as they begin to develop their own regional innovation ecosystems.
