

Dear Students, dear Colleagues,

let me reiterate the constant commitment of the University to support students; we are in fact aware of the actual economic hardship that many families are facing.

We have worked to define measures to support critical situations, organizing our actions in various areas.

In detail, we confirm [the extension of the NO TAX AREA](#), which involves the total exemption from the payment of the all-inclusive contribution for EU students who have an ISEE less or equal to 20.000€; partial exemption for those who have an ISEE between 20.001€ and 30.000€.

A ministerial fund of around 600.000€ is devoted to bridge the digital divide of students in need.

We confirm the reimbursement, for deserving students without means, of the meal vouchers not used during the lockdown period, for an amount of approximately 440.000€.

The University has also provided a fund for [extraordinary grants](#) given to students in serious difficulties.

We are working on the allocation of DSU scholarships; we have received 10,700 applications this year, an increase compared to last year. The University confirms once again this year its commitment to cover with its own funds the allocation of scholarships to all eligible students.

We will continue to keep you updated in the coming days on the measures that Politecnico will implement to start in the best way the new academic year.
