

Dear Students, dear Colleagues,

I would like to remind you that from Monday, with the start of the teaching activity of the new academic year, all Professors and students will have access to the Webex Meetings licenses that were distributed through a notification by CISCO during the last week. Please check the correct functioning of the system on your devices.

Many Professors followed the training sessions offered last week and over 1200 of them could test the new platform in presence in the classrooms. The students received a tutorial on the use of Webex which is published on the Beep platform.

Let me confirm today that we are ready to welcome students and to open safely all the classrooms and spaces of the Campuses in Milan and of the regional ones: this important goal is the result of a great deal of work by all the Professors, the technical and administrative staff and the students' representatives.

I invite everyone to consult the new COVID Emergency Management Guidelines published today on the University website (the english version will be published soon [on this page](#))

For reports on the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta
Rector of Politecnico di Milano
