MEET THE STEP-CHANGERS – A SERIES OF VOICES SHAPING SUSTAINABLE CHANGE

A platform to explore the cutting-edge research in sustainability developed during the PhD career of the STEP-CHANGE PhD Program.

The goal is to provide a space to present research, receive feedback, foster synergies, and encourage networking and informal exchange among peers.

Multi-sector assessment of climate change mitigation policies on the African energy system

Speaker: Teresa Bonserio

Future Navigation Systems: 5G and LEO-PNT as Complements to GNSS to Improve Precise Positioning in Urban Environment

Speaker: Marianna Alghisi
