## Points of Strength

Located in the northwest end of the Kowloon Peninsula, the Chinese University is celebrated for the beauty of its campus: built on a hillside, it is the largest and the most stunning in Hong Kong. Most of this area is covered in greenery and offers a natural habitat for many varieties of flora and fauna which great care has been taken to protect and enhance. The pedestrian-friendly campus is perfect for bird and botany tours, as well as hiking, cycling and long leisurely walks. A stroll from the MTR University Station to any of the University's Colleges may take visitors past a lily pond, rare trees, a Chinese pavilion, a tree-lined mall, monastic courtyards, a Chinese medicinal garden, famous sculptures, award-winning architecture and many other attractions. All this makes the Chinese University an ideal environment for an exchange experience.
