

Curtin University

Perth, Australia

Founded in May 1900, at the end of the second millennium Curtin turned into a global Higher Education provider, with campuses established in Sarawak, Malaysia, Singapore and recently Dubai and Mauritius.

Today Curtin is seen as a strong and growing force on the educational landscape and architectural design, highly attractive to local and international students. The School is known for the ways in which design and built environment help improve the quality of life, enhance community wellbeing and settlements of all sizes from rural villages to mega-cities in a sustainable way. Curtin also embraced the digital revolution that is currently transforming teaching and learning experiences and opening up possibilities for online education.

In 2022 the Greater Curtin project will make the Perth Campus a collaborative hub for teaching, research and innovation for both industry and the community. The construction of the new School of Design and the Built Environment, home to Architecture, will be completed by mid 2021.

Points of strength

The quality of learning and student experience, the creative response to emerging pedagogical and technological changes are at the foundation of the Undergraduate course.

The focus on innovative solutions in Architecture through research projects ensure that the Master Course is sought as the leading provider of Architecture education and research, accredited by the profession and valued by our Partners globally.
