

Institut d'Urbanisme de Lyon

Lyon, France

Institut d'Urbanisme de Lyon

 <https://iul-urbanisme.univ-lyon2.fr/>

Founded in 1991, at the end of twenty years story of experience in education in the field of urbanism; its foundation is the result of a partnership between the Ministère de l'Équipement, local institution, as the Ville de Lyon, the Conseil général du Rhône and the Conseil régional Rhône-Alpes. Together with the agence d'urbanisme de Lyon, the Société française des urbanistes and several universities among which the Université Lumière Lyon 2 and the École d'Architecture de Lyon. Since then IUL aims at being an high level education center in the field of urban and territorial planning, a space of exchange and cooperation between the academic and the professional world; an environment for scientific networking at local, national and international level. The objectives are those of helping cities and citizens deal with contemporary challenges and that of contributing to both theory and practice with the production of expert knowledge. Since 2003 the UPL is a member of the Laboratoire Triangle, an interdisciplinary project of collaboration between different research institutions (CNRS, l'ENS de Lyon, l'Université Lumière Lyon 2, Science Po. Lyon et l'université Jean Monnet de Saint Etienne). It is supported by national funds and dedicated to promote new transdisciplinary highly qualified research.

Points of strength

IUL offers a high level education based on a combination of theory and professional practice, scientific analysis and empirical knowledge. The strong interaction with the local, regional, national institutions and stakeholders make it a very lively and challenging context to study at. Its location in Lyon offers a unique opportunity of living in a dynamic city region, well known for its strategic planning capacity and attitude.
