 national ranking #3

Tianjin University is the oldest institution of higher education in the modern history of China. Founded in 1895 as Peiyang University, Tianjin University's 125-year history is the epitome of the progress of modern Chinese higher education, embodying the Chinese people's indomitability through challenging times. During its growth spanning three centuries, the University has been a pioneer in several fields, from the first aero engine in China to the first Hydraulics Laboratory established in China.

Tianjin University has been a pioneer in several fields. Here we outline some of the firsts to have been achieved on campus, from the first aero engine in China to the first unmanned aerial vehicle. Their stories are filled with the pioneering spirit, inventiveness, and innovation that we try to foster here at TJU, and can enlighten both students and the public, inspiring everyone to push forward no matter what their project. During our long history, many notable scholars have studied in Tianjin University's halls, enriching the culture of the university and sending forth new graduates into the world with the skills and knowledge they need to contribute to society.

## Points of strength

School of Architecture Tianjin University is one of top architectural schools in China. Architecture and urban planning disciplines are ranked No.3, landscape architecture ranked as No.5. The teaching is based on strong pragmatism and buildability of the architecture but with strong emphasis of innovation and experimentation.

The School of Architecture of Tianjin university has a strong background in professionalism. Several great Master of architecture and National Awarded professionals in China are graduated in this institute.
