

Centrale Supélec

Paris, France

CentraleSupélec

 <https://www.centralesupelec.fr/>

 national ranking #54

Born on 1 January 2015 from the union of the École Centrale Paris and Supélec, two of the most important French Engineering Schools (Grandes Ecoles d'Ingénieurs), Centrale Supélec trains versatile engineers, with a strong managerial culture, a focus on both technical and social aspects and a significant international vision. Like the other universities of the Écoles Centrales group (Lille, Lyon, Marseille, Nantes), Centrale Supélec's offers is based on a highly multidisciplinary curriculum, which also includes various soft skills and broad relationships with the job market. The educational offer is based on a common initial part and a wide subsequent choice of specializations and options, which face the great challenges of the contemporary world with the tools of engineering. Students will be able to choose, among others, the specialization in Science and Construction Engineering, which addresses in a systemic way the complex issues of conception, construction and management of buildings and urban agglomerations by means of digital and industrialized tools. The Centrale Supélec campus is located in Paris-Saclay and is divided into four newly built buildings (one designed by OMA), which host about 4,200 engineering students.

Points of strength

The multidisciplinary educational offer trains future graduates to play a professional role of direction and technical coordination of complex operations. The strong correlations with the economic and industrial realities of France make it possible to carry out interesting internships, which often turn into job opportunities.

Call for International Mobility for ay 2021/22

Erasmus Agreement: 1 position

Building and Architectural Engineering
Ingegneria dei Sistemi Edilizi

Technical Information

Promoters BAE: Giuliana Iannaccone, Gabriele Masera

Promoter ISE: Liberato Ferrara

Language of the courses: English, French*

Language requirements: French Certificate level B1

*courses of general language and culture availables
