NOTES

GRADUATION SCORE AND CGPA: In some countries there are two different **scores** after graduation: the **graduation score** is the mark obtained on the graduation day, upon the discussion of a dissertation. Lowest graduation grade is the minimum grade necessary to obtain a degree. Highest graduation grade: the highest possible grade on the graduation day. Example: in Italy, the graduation score is out of 110. **CGPA** is the average of all the marks obtained during the bachelor studies. Lowest in the scale: is the minimum mark for passing an exam. Ex.: in Italy the passing grade is 18 out of 30. Highest in the scale: the highest possible mark.
