

PROGRAM

9 JULY, 9:00 – 19:00

9:00 Opening, Vegezzi Pavillion

9:30 Keynote 1, Vegezzi Pavillion

Continuum models for masonry

Prof. M. Angelillo, University of Salerno, Italy

10:30 Coffee Break

10:45 Parallel Sessions

12:30 Lunch

14:00 Parallel Sessions

15:45 Coffee Break

16:00 Keynote 2, Vegezzi Pavillion

Artificial intelligence and computational mechanics

Prof. G. Stavroulakis, Technical University of Crete, Greece

17:00 Coffee Break

17:15 Parallel Sessions

10 JULY, 9:30 - 19:00

9:30 Keynote 3, Vegezzi Pavillion

Continuous dynamic monitoring of an iconic monument: The Cathedral of Milan

Prof. C. Gentile, Politecnico di Milano, Italy

10:30 Coffee Break

10:45 Parallel Sessions

12:30 Lunch

14:00 Parallel Sessions

15:45 Coffee Break

16:00 Keynote 4, Vegezzi Pavillion

Effective stress-based seismic evaluation of liquefaction-induced failure of the Demirköprü bridge pile foundation and abutment system during the 2023 Kahramanmaraş earthquake sequence

Prof. K. Önder Çetin, Middle East Technical University, Türkiye

17:00 Coffee Break

17:15 Parallel Sessions

POLITECNICO DI MILANO

CONFERENCE CHAIRS

Prof. Gabriele Milani

Politecnico di Milano,
Department of Architecture,
Built Environment and Construction
Engineering (ABC), Italy

Dr. Erica Magagnini

Università Politecnica delle Marche,
Department of Construction,
Civil Engineering and Architecture
(DICEA), Italy

DATE

9-10 July 2026

BUILDINGS:

Main: Vegezzi Pavilion

In addition:

Negrottil Pavilion, Negrotti2 Pavilion,
Guidotti Pavilion
Piacenza Regional Campus Arata
of Politecnico di Milano
Via Scalabrini, 113 - 29121, Piacenza, Italy

REGISTRATION AND FEE

Student* fee: 550,00 €

Non-student fee: 750,00 €

1st International Conference on Modeling, Testing and Monitoring of Engineering Structures

MOTEMOES 2026

Evento di Formazione Continua erogato dal
Polo Territoriale di Piacenza

POLITECNICO
MILANO 1863 | DIPARTIMENTO DI ARCHITETTURA
INGEGNERIA DELLE COSTRUZIONI
E AMBIENTE COSTRUITO

AIMS AND OBJECTIVES

The First International Conference on MOdelling, TEsting and MOnitoring of Engineering Structures (MOTEMOES 2026) is an international event that will be held in Piacenza's Regional Campus Arata of Polimi 9-10 July 2026. The conference is dedicated to bringing together a significant number of international researchers, practitioners, and industrial partners to present and discuss recent advances in engineering structures, with particular emphasis on numerical modelling, experimental testing, and monitoring.

By maintaining high scientific standards, the conference offers exceptional value to academics, practitioners, industry researchers, and students fostering strong cooperation between theory and application. Leading academic scientists, researchers, and research scholars are invited to participate to the First International Conference on Modelling, Testing and Monitoring of Engineering Structures (MOTEMOES 2026) to exchange experiences, present research findings, and discuss future research directions.

HISTORY OF MOTEMOES

MOTEMOES 2026 represents the natural continuation of the ICSCES conference series, expanding its original focus to embrace a broader and more comprehensive coverage of the entire field of engineering structures.

After the first edition of this conference in 2021 in Ancona Italy, the conference has been held 3 other times, these include:

- 2021: 1st ICSCES Ancona, Italy
- 2022: 2nd ICSCES Ancona, Italy
Conference Proceedings of ICSCES 2022 are published in the "Volume 317 of Lecture Notes of Civil Engineering"
- 2023: 3rd ICSCES Lecce, Italy
Conference Proceedings of ICSCES 2023 are published in the "Volume 486 of Lecture Notes of Civil Engineering"
- 2025: 4th ICSCES Piacenza, Italy
Conference Proceedings of ICSCES 2025 are published in the "Volume 746 of Lecture Notes of Civil Engineering"

PAPER SUBMISSION

Papers submitted to the First International Conference on MOdelling, TEsting and MOnitoring of Engineering Structures (MOTEMOES 2026) will be subjected to a technical peer-review process and, upon acceptance, will be published in the Book Series "Lecture Notes in Civil Engineering".

All accepted papers will be indexed in Scopus. It should be noted that there is no upper bound limit for the number of pages of the full papers, but there is a lower bound limit: the papers cannot be shorter than 6 pages (note a Springer page is approximately 480 words including equivalent figures/tables).

Paper submission follows abstract submission.

ABSTRACT SUBMISSION

The abstract submission deadline is 28th of February 2026. Please note at least one author should have been registered so that the final paper will be considered for publication.

CONFERENCE VENUE

The conference will be held in Piacenza, at the Piacenza Regional Campus Arata of Politecnico di Milano, Italy. The Piacenza's Regional Campus of Politecnico di Milano (Polimi) is a vibrant academic and research hub. The venue's stunning architecture and modern infrastructure make it an ideal location for this conference.

The main venue for the event is the Manfredi Pavilion. In addition, there are several presentation pavilions, including the Negrottil Pavilion, Negrotti2 Pavilion, and Guidotti Pavilion. The city is surrounded by several international airports (Milan Linate, Milan Malpensa, Guglielmo Marconi Airport in Bologna and Caravaggio Airport in Bergamo) with a 1-2 hours driving/train distance.

COMMITTEES

CONFERENCE CHAIRS

Prof. Gabriele Milani
Politecnico di Milano, Department of Architecture, Built Environment and Construction Engineering (ABC), Italy
Dr. Erica Magagnini
Università Politecnica delle Marche, Department of Construction, Civil Engineering and Architecture (DICEA), Italy

EXECUTIVE CHAIR

Dr. Natalia Pingaro
EUCENTRE European Centre for Training and Research in Earthquake Engineering

ORGANISING COMMITTEE

Sare Nur Avci, Alessandro Gandolfi, Yuewen Gao, Dr. Kai Guo, Yahroun Hermans, Dr. Yiwei Hua, Mohammad Pourfouladi, Dr. Peixuan Wang, Xing Wu, Dr. Yu Yuan, Li Zhang

SCIENTIFIC COMMITTEE*

Prof. Jose Adam (Spain), Prof. Panagiotis G. Asteris (Greece), Dr. Levingshan Augustus Nelson (UK), Prof. Oguz Anil (Turkey), Dr. Hamad Basshofi Habieb (Indonesia), Prof. Rita Bento (Portugal), Prof. Michele Betti (Italy), Dr. Karina Buka-Vaivade (Italy), Dr. Sebastian Calderon (Chile), Prof. Ivorra Chorro (Spain), Dr. Thainswemong Choudhury (India), Prof. Francesco Clementi (Italy), Prof. Rossana Dimitri (Italy), Prof. Marco Domaneschi (Italy), Prof. Mario Fagone (Italy), Prof. Roberto Fedele (Italy), Prof. Antonio Formisano (Italy), Prof. Aguinaldo Fraddosio (Italy), Prof. Stefano Galassi (Italy), Prof. Matija Gams (Slovenia), Prof. Siddhartha Ghosh (India), Prof. Bahman Ghiassi (UK), Prof. Ernesto Grande (Italy), Prof. Antonino Iannuzzo (Italy), Prof. Irfan Kocaman (Turkey), Prof. Frederic Lebon (France), Dr. Jose Lemos (Portugal), Prof. Shengcai Li (China), Prof. Paulo B. Lourenço (Portugal), Prof. Lorenzo Macorini (UK), Prof. Thierry Massart (Belgium), Prof. Julian Garcia Munoz (Spain), Prof. David Mencias Carrizosa (Spain), Prof. Omer Mercimek (Turkey), Dr. Pietro Meriggi (Italy), Prof. Francesco Micelli (Italy), Dr. Giulia Misseri (Italy), Dr. Andrea Montanino (Spain), Prof. Marius Mosoarca (Romania), Dr. Vanni Nicoletti (Italy), Prof. Daniel Oliveira (Portugal), Dr. Carlo Olivieri (Italy), Dr. Ali Ozcebe (Italy), Prof. Fuvio Parisi (Italy), Prof. Guilherme Aris Parsekian (Brazil), Prof. Renato Perucchio (USA), Prof. Stan Pietruszczak (Canada), Prof. Si Qi Li (China), Prof. Oded Rabinovitch (Israel), Prof. Emanuele Reccia (Italy), Prof. Luisa Rovero (Italy), Prof. Luis Pellares Rubio (Spain), Prof. Vasilis Sarhosis (UK), Prof. Nigel Shrive (Canada), Prof. Dmitrijs Serdjuks (Latvia), Prof. Marta Slowik (Poland), Prof. Georgios Stavroulakis (Greece), Prof. Tavio Tavo (Indonesia), Prof. Hamid Toopchi-Nezhad (Iran), Prof. Francesco Tornabene (Italy), Prof. Humberto Varum (Portugal), Prof. Eli Vintzileou (Greece)

TOPICS

Engineering Structures, Modelling, Testing, Monitoring
